

# GROUP 2

## PROJECT MARKS

Following are the results of your final project marking.

The project was tested in Android Studio with the following setup:

Android studio version: Ladybug feature drop 2024.2.2

Compile SDK: 35

Min SDK: 24

Target SDK: 35

Java Version: 11

Gradle plugin version: 8.8

Gradle version: 8.10.2

After cloning a fresh copy of your repository, features were tested in order that they appear in the "Done" column on your group's Trello board. Testing terminated when a feature that failed to pass the "happy path" was encountered.

Each feature was marked as follows:

zero (0)--Missing, or not graded due to earlier failures.

5 pts--Not really: present, but fails happy path.

6.5 pts--Somewhat: fails boundary values or devious input.

8 pts--Mostly: no failures, but not ready for Play Store.

9.5 pts--Definitely: no failures, could be published as-is on Play Store.

Extra features were considered only if all other features achieved "Mostly." Additionally, extra features only result in extra credit if they are marked "Mostly."

You did not invite me to join your Trello board, so I don't know what features you plan to implement, nor in which order they should be marked.

Your

Section/+ Component	Mark	Score	Possible
<b>Marks</b>			
+ Feature 1: Login.	Not really	5	of 10

There is no "register" feature that I could see, and it seems credentials are not authenticated. The main screen shows "Ciara Malley" regardless of who is logged-in.

+ Feature 2:	Not really	5	of	10
Create flash card.				
Causes the app to crash.				
+ Feature 3:	0	0	of	10
Unknown.				
+ Feature 4:	0	0	of	10
Unknown.				
+ Feature 5:	0	0	of	10
Unknown.				
+ Feature 6:	0	0	of	10
Unknown.				
+ Feature 7:	0	0	of	10
Unknown.				
+ Feature 8:	0	0	of	10
Unknown.				
+ Feature 9:	0	0	of	10
Unknown.				
+ Feature 10:	0	0	of	10
